Welcome to American Transit Mix

History

American Transit Mix Company, Inc. (ATM) was incorporated in 1947 by Merle Sr., Ian and John Mensinger of Modesto, CA.

In 1979, the Madera Plant was acquired from Talley Concrete. In December of 1981, the French Camp facility was acquired from Century Ready Mix owner Jim Fitts, during a time of a

severe recession.

Within two years, Lonestar acquired a partner RMC Industries, the world's largest ready mix concrete supplier. In 1993, ATM erected the Newman Plant to serve the West Side of Stanislaus County. In April of 1997, ATM acquired the ready mix operations of RMC Lonestar in Fresno and Bakersfield bringing the total locations to 8. In April of 1998, the Delano location was acquired from Valley Ready Mix. In 1999 ATM added a Portable Plant to be used throughout our service area. In 2001 a new facility was added to Lodi and a location was acquired from Centennial Ready Mix in Taft.

In November of 2002, a facility in Tulare was acquired. In January 2003 we acquired the assets of Southwest Ready-mix with plants in Bakersfield, Taft, Buttonwillow, and Shafter. In January of 2003, we acquired two more plants in Lemoore and Farmersville plus the addition of our Merced and Stockton facilities in October 2003. American Transit Mix Company, Inc. currently has 20 plant locations plus 3 portable plants and over 225 ready-mix trucks from Lodi in the north to Bakersfield in the south. None of this would have been possible without dedicated employees working together to make a stronger Company. In 2005 American Transit Mix became part of [CEMEX](#), the global building solutions company.
